

Serenity Now

August Pedicure Special *Sparkling Grapefruit Pedicure*

Soak up the last of summer! Enjoy an aromatic foot bath while we care for those nails and cuticles. A vigorous exfoliation is followed by more targeted foot smoothing, especially around the heel and other problematic areas. Then, settle back and make yourself comfortable for a relaxing foot and leg massage. We end with your choice of polish color.

\$65 (Includes Complimentary Beverage)

WHAT IS DERMAPLANING?

Dermaplaning is a safe and simple procedure that provides a deep exfoliation of the skin and removes “peach fuzz” from the face. The treatment is done using a scalpel to softly shave off the dead layers of skin while unclogging dirt and debris that can get trapped in the pores and small hairs on the face.

This treatment gets rid of the dull layer of skin, leaving you with a refined, smooth, and glowing complexion. More benefits include longer lasting makeup applications and better product absorption, allowing you to use less product over a longer period of time. Ward off dry skin with this treatment and reap the rewards of smooth, radiant skin!

Treatment only \$75
Treatment w/ Facial \$125

How Does Laser Hair Removal Work?

Highly concentrated light energy from the laser is used to target and destroy hair follicles responsible for hair growth without harming surrounding tissue. The pigment in these follicles absorbs the light which destroys the hair. This results in permanent hair reduction that's fast, easy and FDA-cleared.

Typically 8-10 treatments are required to achieve desired results. Several factors, including skin type, area of body being treated and hair color will establish the treatment plan outlined by our certified technicians.

During treatment, most people feel only a slight pinch at the treated area. Immediately following the treatment most people experience a mild, sunburn-like sensation, possibly accompanied by some minor swelling, which can last two to 24 hours.

PROTECT YOUR HAIR THIS SUMMER

During the summer, our hair can be harmed by overexposure to the sun, sweat, humidity, and spending too much time in the swimming pool. While these factors can certainly cause a bad hair day, they can also lead to long-term damage; however, with these helpful hints you can maintain healthy hair all year round.

- Don't wash your hair everyday. This will cause more harm than good. Along with the sun, too much shampoo can dry up your scalp and hair. Instead, opt for a **Dry Shampoo**, which will get rid of that greasy hair feeling without washing.
- Love your conditioner! Restore some moisture to your hair with a rinse-out conditioner that suits your hair type. A **leave-in conditioner** is also a great way to keep hair hydrated and moisturized.
- Protect your hair from the heat! Help eliminate frizz and add shine while protecting your hair from harsh rays with a **Protective Oil**.
- Get a trim! Take care of split ends and dry tips with a fresh summer **haircut** that will bring your locks back to life.
