Introducing CBD Oil at Serenity

What is CBD?

CBD is the non-intoxicating component of the hemp plant that has been known to have enormous healing qualities.

Is the hemp plant the same as the Cannabis plant?

No, it is in the same plant family but is a completely separate plant. The hemp plant does NOT have THC in it. (THC is the psychoactive agent in the Cannabis plant).

What is CBD oil used for? .

Studies have shown CBD to have natural pain-relieving, anti-inflammatory qualities and to increase general relaxation and calm the nervous system.

Why is it everywhere all of a sudden?

After many years of research the government removed CBD from the controlled substance act in 2018 and eased restrictions on farmers who grow it.

Is it addictive?

No it is not because it does not contain THC. In fact, it can actually have the reverse effect when used over time. It can have a cumulative effect on pain and inflammation so the longer you use it the less you may need.

Serenity now offers several ways to experience CBD !

A full body massage using CBD oil for extra relaxation - **\$25 add-on to any massage**

A spot treatment with a higher concentration of CBD for pain relief - **\$15 per treatment area**
(back, neck & shoulders, hands & arms, or feet & legs)

A higher concentration CBD oil for at-home use - **\$35 for a 2 ounce bottle**
